Stage + Auditorium

Seating Bank

Retractable Seating System

Image by [INSERT] 2021

System	Maxwood Technology TX-RPO
Seat Style	Espace 628CC.00 High Back
Number of Rows	7 rows of seating on 6 platforms (when fully extended)
Row Rise	350mm
Row Depth	950mm
Number of Aisles	2 – one at each end
Aisle Width	1015mm
Seat Fabric	Camira Main Line Plus – Prudence IF250
Carpet Fabric	Heckmondwike Supacord Carpet - Purple

Operable Configurations *(Refer to Seating Configurations plans)*

Mode	Description	Seating Capacity	Stage Space
1	Fully extended (7 rows) Rows A to G	108 general admission seats 2 accessible seating areas w/ companion seat 2x stage-level	10600mm (width) x 6000mm (depth)

2	Partially extended (5 rows) <i>Rows A to E</i>	76 general admission seats 2 accessible seating areas w/ companion seat <i>2x stage-level</i>	10600mm (width) x 9000mm (depth)
3	Partially extended (3 rows) <i>Rows A to C</i>	44 general admission seats 2 accessible seating areas w/ companion seat <i>2x stage-level</i>	10600mm (width) x 11000mm (depth)
4	Fully retracted	Flat floor – no seats	10600mm (width) x 13800mm (depth)

Stage Dimensions

Stage Description

Rake	None
Surface	Weathertex sheeting, painted black, over 2x layers of plywood.

Venue Size *(not including under mezzanine balcony – seating bank retracted)*

Total Area	147.21m ²
Total Width of Venue	10600mm
Total Length of Venue	13800mm

Stage Height

Floor to underside of mezzanine balcony (OP)	2300mm
Floor to underside of grid	4360mm
Floor to underside of Rigging Points	4600mm
Total Height of Venue	4760mm

Stage Dimensions *(when seating bank is in Mode 1 – 7 rows)*

CL = Centre Line SL = Setting Line, measured 1000mm from the front row of seats (Row A)

CL to PS Wall	5300mm
CL to OP Wall (not including under balcony)	5300mm
CL to OP Wall (including under balcony)	7700mm
SL to US Wall	6000mm
SL to feet of front row of seats (Row A)	1000mm
COVID 19 SL to US Wall	5000mm
COVID 19 SL to front row of seats (Row A)	2000mm

Staging + Rigging

Fixed Grid

Description	Fixed 40NB 3.2mm wall steel pipe (satin black finish) pipe grid across space. <i>Refer to Grid Plan.</i> Small stock of additional pipe to create alternative positions. Additional single LX pipe above control desk in bio box.
Stage Floor to underside of pipe grid	4360mm
Pipe Grid Load Ratings	
<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: center;"> <h3>Working Load Limit (WLL)</h3> <h4>Distributed Load</h4> </div> <div style="text-align: center;"> <h3>5T</h3> </div> </div> <div style="display: flex; justify-content: center; align-items: center; margin-top: 10px;"> <div style="text-align: center;"> <h4>Point Loads</h4> </div> </div> <ul style="list-style-type: none"> Distributed and Point Load must NOT exceed the Working Load Limit Total load between mid points of pickups not to exceed 100kg Point Load is a single point load. Additional point load must not be loaded within 3m. Point Load and Distributed load must not be loaded at the same locations. 	
Rigging Points	Fifteen (15) 1.5T rigging points, maximum of four (4) to be used at one time. <i>Refer to Rigging Point Plan.</i>

Access Equipment

Note: access equipment is shared across venues within the precinct and is subject to availability. Clients are encouraged to discuss their access needs with the venue.

Pillar to Wall	1700mm (W)
Floor to clear speaker	2300mm (H)

Other Staging Notes

- + Metro Arts adopts definitions outlined by *Live Performance Australia* when describing rigging work.
- + Attaching or suspending items using pre-existing / proprietary systems using a standard method is generally not defined as rigging by WHS regulations. This includes handing technical elements (lighting, sound, vision) from hook clamps, attaching cloths/drapes/banners, attaching scenery with a dedicated attachment point, attaching design elements and/or attaching/running cables.
- + Any rigging work beyond the above scope may require installation and sign-off by a qualified rigger, to be wholly arranged at cost by the client.

Lighting

Control

Lighting Console	ETC Ion Xe with (1) 24" LCD touch screen monitor; and (1) 24" LCD screen monitor
Control Channels	2048 outputs

Technical Gallery (Mezzanine OP)	(7) Dimmer Bay – 6 used for dimmer racks
GPOs / Green Power / Blue Power	Located at Technical Panels. <i>Refer to tech plans.</i>

Special Effects

Make	Model / Item	Details	Watts	Qnt
Unique	2.1 Hazer manual link	Haze machine without compressor DMX: 2 Channel (pump vs fan) Permitted Fluid(s): Unique 2.1 Haze Juice	1500w	1
Beamz	F1600 ProFaze product link	Smoke machine in flightcase DMX: 2 Channel Permitted Fluid(s): TBC	1600w	1

Smoke + Haze Approval of Use	Any smoke / haze, dry ice or other that is brought into the venue must be approved prior to use. A safety data sheet will be required for all chemicals. The Venue Manager must be consulted whenever any smoke, fog or haze effects are used. The venue must be informed prior to each use of an effect as to make appropriate arrangements to isolate the fire alarm system appropriately. Metro Arts reserves the right to deny the use of any special effects.
Smoke + Haze Approved Fluids / Fees + Charges	Strictly only approved fluids may be used. Metro Arts can provide approved fluids subject to a consumption fee. Please contact venue to enquire.
Cigarettes / Herbals / Vapourisers	See above.

<p>Strobe / Lasers</p>	<p>For audience comfort and safety, the use of strobe and/or lasers may require warning notices to be included in event billing and displayed publicly. Metro Arts may require additional documentation prior to approval. Please discuss your event needs with your Event Coordinator.</p>
<p>Pyrotechnics / Flames</p>	<p>Pyrotechnics and naked flames are strictly prohibited in all venues due to installed fire protection systems</p>
<p>Flutter / Confetti</p>	<p>Please discuss your event needs with Metro Arts. Any use of any items that may impose a hazard to the venue air-conditioning system may be refused by Metro Arts. Additional cleaning fees may be charged depending on circumstances.</p>

Other Lighting Notes

- + Limited gel stock provided by the venue. Please contact the venue to arrange a site visit or to enquire stock availability.
- + Battery powered and corded LED work lights are available upon request.
- + Any additional equipment being brought into the venue must be inspected by venue staff prior to installation or use.
- + All electrical appliances and cables shall be tagged with an appropriate safety tag in accordance with AS 3760:20003.

Sound

Control Positions

Standard control position is in the bio box, directly behind the seating bank. The bio box features a three-panel operable glazed all and provides direct access to antennas for wireless microphones

Sound consoles can be placed in other locations by special arrangement in consultation with the venue. Mixing position in the seating bank cannot be achieved. Adequate time must be scheduled to accommodate relocation of the system. Additional cabling required to re-direct signal from wireless microphone antennas.

System

Primary Mixer	Behringer X32 Digital Mixer
Secondary Mixer	Allen & Heath Qu-16 Digital Mixer
Amplifiers	None – self-powered speakers deployed.
EQ / FX	In-build features of primary mixer.
Signal Distribution	(1) PreSonus Quantum 2626 (Thunderbolt 3 to iMac) (1) Behringer P16-D 8-way Ultranet Distribution
Playback System (Sound + Vision)	27-inch iMac (2019) <i>System: Mac OS Cataline 10.15.6</i> <i>Processor: 3.6GHz 8-core ninth-generation Intel Core i9 processor with Turbo Boost up to 5.0GHz.</i> <i>Memory: 64GB of 2666MHz DDR4 memory.</i> <i>Graphics: Radeon Pro Vega 48 with 8GB of HMB2 memory.</i> <i>Storage: 1TB of SSD storage.</i> <i>Display: Retina 5k display.</i>
Playback Software	QLab 4.7 (audio, video, and lighting pro license)
Fire System PA Ducking System	Yes – required for all events.

Health, Safety + Environment (HSE)

Fire Safety

- + All scenery, props, and masking must be suitably flame retarded and be rendered non-flammable to the satisfaction of Metro Arts.
- + No scenery and properties are permitted to block or obstruct designated exits at any time.
- + Flammable liquids, gasses, chemicals, solvents or other dangerous materials are not permitted to be brought on site of the precincts without approval.
- + The use of live flames (including candle) is strictly prohibited across all venues of the precinct. The use of haze or smoke effects is prohibited without prior permission from Metro Arts. Please refer to *Special Effects* under *Lighting*.

Safety

- + Metro Arts and West Village is strictly a non-smoking precinct. This includes the use of e-cigarettes and vaporizers.
- + Alcohol is not permitted to be consumed before or while on duty. Alcohol is not permitted to be consumed in the back of house areas, including the bio box, green rooms and dressing rooms, unless pre-approved by Metro Arts. Alcohol must not be brought onsite, even if not being consumed in accordance to the venues liquor license. Failure to comply may result in termination of contract.
- + Footwear and clothing must be appropriate to the activity. Enclosed footwear is required at all times during bump-ins/outs. Any barefoot personnel (including performers) must be appropriately risk assessed.
- + All electrical appliances and cables shall be tagged with an appropriate safety tag in accordance with AS 3760:20003.
- + No single insulated cable is permitted to be connected to any Metro Arts power source. This applies to all voltages including extra low voltage (under 32 volts).

Risk Assessment

A risk assessment must be submitted at least 7 days prior to the first day onsite and must include bump-in / bump-out periods. Entry into the venue may be refused until a risk assessment can be provided.

A comprehensive risk assessment is required during pre-production for all shows and events. The Risk Assessment needs to consider the risks associated with your specific event. It should be submitted to Metro Arts at least seven days prior to the event. Our staff can assist you with this process, including a venue standard sanctioned template.

General considerations include:

- + All equipment brought on site is subject to safety checks by Metro Arts staff prior to installation or use.
- + All electrical appliances and cables shall be tagged with an appropriate safety tag in accordance with AS 3760:20003.
- + Overhead equipment (including lighting and scenery) must be rigged by competent persons.
- + Rigging of high-risk items and/or equipment must be rigged by a qualified rigger, using appropriately certified equipment.
- + Equipment rigged overhead must be secured with a safety chain or similar redundancy.
- + Approved drapes must be of a fire retardant fabric or treated with an approved fire retardant and with an appropriate label attached to the drape.
- + Compressed air may only be used by suitably trained operators.

Other

Accessibility

Metro Arts is dedicated to ensuring that our venue is welcoming to all patrons.

Assistive Listening System	The New Benner Theatre provides a phonic ear radio transmitter system for its patrons. It includes headsets and neck loops to assist with hearing of performances and all seating positions are covered. For more information, contact your Event Coordinator.
Access	The New Benner Theatre can be accessed by elevator from the Foyer to both the Mezzanine and Stage Level. For artists, the New Benner Theatre can also be accessed by ramp from the Service Bay. Please contact your Event Coordinator for further details.
Seating	Accessible seating for patrons is available on both the Mezzanine and Stage Level.
Auslan Interpreting	Metro Arts can assist with organising an interpreter for your event. Please contact your Event Coordinator for further details.
Accessible Bathrooms	There are accessible bathrooms in two locations across Metro Arts + Green room, stage level (artists only) + Factory lane (general public)
Assistance Animals	Assistance animals are welcome in all areas of Metro Arts for both artists and patrons.
Transport	Public Transport – Metro Arts can be accessed most easily by the 199 and 196 bus routes. Please see here for more public transport options. Car – West Village’s carpark offers 2 hours free parking and both levels are wheelchair accessible and offer easy access to Metro Arts.

Storage

Limited storage space is available back of house. Please discuss your needs with your Event Coordinator.

Rehearsal Rooms / Holding Areas

Metro Arts has two rehearsal studios located in the historical Peter’s ice cream factory. These studios feature full-length mirrors, semi-sprung dance floors and in-built sound systems. Subject to availability, additional fees apply. Please contact your Event Coordinator for more information.
