Paine recently completed her MFA at the University of Melbourne, for which she was awarded a Graduate Research Scholarship, the Peter Redlich Memorial Art Prize and a Cranbourne Scholarship. Paine has exhibited at Footscray Community Arts Centre, Burnie Regional Gallery, Composite Moving Image, Lon Gallery, F.S. WINDOWS

KATIE PAINE

16 MARCH - 20 APRIL

WINDOWS

'Windows' explores the nature of vision and how the ways that we see the world affects our experience of time and place. This new media installation is centred around two video works that tell stories about the ways that we encounter and understand the world through the collection of information and the construction of knowledge. Paine looks to consider the apparatus of the eye and the surface of the mirror as metaphoric considerations of how vision acts as an interface between our consciousness and the world around us.
